

Campaign for Bisalpur Water Supply

Around 167 villages of Chaksu and Phagi blocks (Jaipur) are facing serious problem of drinking water due to excess of fluoride in drinking water. Kisan Sewa Samiti was struggling from last three years for getting water supply from Bisalpur Dam in the villages of Chaksu and Phagi block. State government had assured two years back that from Phase II (2010) all villages will be connect with Bisalpur Yojna. But when even after two years of commitment there was no progress, KSS members met the local MLA. They formed a committee in the leadership of MLA of Chaksu and submitted memorandum to the Chief Minister and Minister of PHED with their previous commitment. They also organized Dharna/Rally at local level with active support of PRI members, which was covered by both print and electronic media. covered this issue in the proper manner.

Outcome

PHED department ordered to conduct a survey to identify villages of Chaksu and Phagi block for providing water supply from Bisalpur dam
