

## **Action training on survey through Android Mobile device**

ICCO is working on Food and Nutrition Security Programme. ICCO organized a three days action training of partner NGOs in India, for the purpose to conduct survey in India. The venue of training was SWARAJ, Jaipur. This training was conducted during **3<sup>rd</sup> to 5<sup>th</sup>, September 2013.**

Two representatives; Sweta Tiwari and Govind Vijay from CECOEDECON participated in this training programme.

**Process** – This training was conducted to develop the skill of participants on Akvo Flow tool that is a mobile based survey tool. In this training programme we learned how to download HFIAS scale survey, collect data and send to Dash Board of Akvo flow.

**Learning's** – This was a new experience for us to conduct survey through Android Mobile device. It minimizes time in survey because there is no need of paper work in development of survey formats, data analysis and for result drawn.

After completion of class room training, a survey on food and nutrition security was conducted, data collected from 100 households from Newai block.
